Top 27 Nationwide, *National Physics Olympiad*

1st Place, *Diocese-Level Mathematics Competition*

Experience & Selected Projects

Accord (Shop Management System) , *Founder & CEO • AVENOR 10X*
Developed a sales and inventory management app that helps businesses cross-check sales, identify discrepancies, and update stock accurately.

TradeWise AI, *Independent Researcher*
Investigated whether machine learning could predict seven-day crop price changes for farmers and traders in Rwanda. Analyzed historical market-price data, developed prediction models, and tested their ability to identify future price changes.

Industrial Attachment Program (IAP) , *Full-Stack Developer • Rwanda Coding Academy*
Built a digital six-month attachment system used by 121 students, replacing paper-based logbooks with a system for managing their attachment records and making them accessible anytime.
